

SERVING YOUR BUSINESS

PROJECT CARGO

Expertise

Whatever your project cargo needs, ABP can handle them. Teams across our network of ports offer a wealth of expertise in handling a wide range of project cargo safely and efficiently. Our commitment to investing in training and skills means our teams are equipped to handle complex challenges and are capable of offering the highest standards of service.

Heavy, out-of-gauge or unusual product cargoes are routinely handled with precision and efficiency by our expert teams. From the enormous to the small, from the robust to the most delicate and from the awkward to the simple, ABP has the expertise that can deliver the right solutions for your business.

We work flexibly and collaboratively with our customers and, to add further confidence to your decision to use ABP, we also have strong relationships with specialist heavy lift organisations that are approved to work safely and securely within our ports.

Facilities

You and your customers need safe and time-efficient handling, keeping control of your costs. Our facilities and investments help our customers achieve that objective.

ABP has recently invested more than £500 million in port facilities and equipment. This includes state-of-the-art cranes, terminal facilities and equipment. ABP can discharge or load vessels quickly, safely and securely, minimizing our customers' exposure to unforeseen risks and maximizing certainty on cost.

Our ongoing investment programme means that we maintain world-class berths, the latest and most efficient processing equipment and the right people, ready to help you with your business needs.

Whatever your project cargo needs, ABP can handle them.

”

Connectivity

As the UK's largest port operator with a network of 21 ports around Britain, we offer excellent marine access. Our ports offer efficient road and rail links, providing swift access to destinations throughout the country. This gives you and your customers an expansive range of locations, routes and logistics solutions.

Contact

We are ready to help deliver the solutions your business needs. For more information, contact our project cargo sector expert, Paul Litten.
